- SURFACE
- SURFACE OFF
- PROP-ROAD

- Municipal Limits
- ETJ's

NOTES:

1. The FAR Part 77 imaginary surfaces depict the maximum height for objects within that zone.
2. A slope, such as 20:1. indicates a horizontal distance of 20 feet to a vertical distance of 1 foot
3. The established airport elevation is 771 ft. msl.
4. The runway shown shows the current airport and planned expansions.

This is to certify that this map is the "Official Airport Zoning Map of Rowan County, NC" and is hereby incorporated into the Rowan County Zoning Ordinance and official zoning maps, adopted on the 4 th day of OCTOBER, 2004
