TURN OVER

Dear Parents,

It is critical that everyone is counted! Anyone who is living in your household as of April 1, 2020 should be counted in the 2020 Census.

The census is much more than just a head count. It provides a picture of our nation that helps determine:

- Where to build new schools, hospitals, and businesses;
- How federal funding is distributed;
- How congressional seats are apportioned;
- And it also helps us see how our communities have changed over time.

That's why an accurate count is so important. *The 2020 Census is 100% Confidential.*
