Dear T.R. Family & Friends,

I wanted to send an additional update to all of our Therapeutic Recreation family and friends on the current situation of our programs. As of right now all programs for Therapeutic Recreation have been canceled through at least August 1st. We greatly miss seeing each of our participants, volunteers, and their families.

Some park amenities have reopened such as tennis courts and bathrooms. Buildings, playgrounds, attractions, and shelters remain closed through at least July 20th. Parks remain open for walking and outdoor exercise while maintaining proper social distancing. I have listed current park hours below for all of our county parks. Currently staff remain working however hours may vary.

County management and our department is following the situation closely and will make further adjustments as necessary in the coming days. Please remember to follow us on our websites and Facebook pages. We will post new information there as it comes along. If you need assistance, please contact our department at 704-216-7780.

More updates may be found at www.rowancountync.gov/covid-19.
