SALISBURY BOARD OF EDUCATION/ CHAPTER V

Policy Code: 5-4 Advertising In the Schools

A. Generally

Commercial or political advertising that is permitted in the schools shall not exploit students, school personnel, or the school district.

B. Use of Commercial Materials

The Board permits the use of instructional materials developed by commercial organizations if the educational value of the materials outweighs their commercialism, if the advertising is in good taste, and if comparable materials are not available elsewhere at a reasonable cost.

C. Announcements, Notices, and Signs

The Principal may permit the posting of announcements, notices, and signs in designated areas of the schools if the advertised activity or cause may be beneficial to the students.

D. Political Advertising

Students are encouraged to take an active interest in national, state, and local elections through various school sponsored activities. However, school facilities or equipment may not be used as a means of producing or disseminating to the community any materials that advertise or promote a political party or cause, or the candidacy of an individual for public office.

Candidates for public offices who have officially filed for elective office may, however, place advertisements in school publications such as newspapers or athletic programs. No advertisements may be placed that support political causes; only the promotion of individual candidacies shall be allowed.

Student elections are considered a part of the educational program and should be conducted in accordance with school regulations.

E. Advertising in School Publications

School and/or student publications that normally solicit paid advertisements as a means of supplementing income may accept and publish paid advertising copy that is appropriate for a school publication.

Advertisements for products or services that are in conflict with the Board's philosophy of education or that might encourage students to deviate from this philosophy shall not be accepted.

Advertisements will not be accepted from businesses whose main purpose is to sell alcoholic beverages, drug paraphernalia, or other products or services not generally accepted for students. However, any individual may purchase advertising space and insert the phrase "Compliments of (name of individual)."

The Board reserves, through its agents, the right to reject any advertisement in a school publication.

KANNAPOLIS CITY BOARD OF EDUCATION

Policy Code: 5035 Political Activities on School Property

The Kannapolis City Board of Education recognizes the importance of good citizenship and educating students in American government and our political system. However, except as allowed by this policy, no political or campaign activities shall occur on Kannapolis City Schools (KCS) property. KCS modes of communication (such as emails, text, websites, mailboxes, materials distributed through students for parents, etc.) shall not be used by a political candidate or for campaign activities by any person or group.

With regard to school or at school-sponsored facilities and grounds, candidates for public office are prohibited from being present on school grounds during the school day or after school while school activities are taking place in order to further their political campaigns, unless all of the candidates for that particular public office have been invited to attend the activity as well.

If a school is a voting site for either primary or general elections, candidates for public office are allowed on school grounds to the extent allowed by relevant election laws on those days, when the school is being used for that purpose. In addition, candidates for public office may be permitted to rent school facilities outside of school hours and when there are no other school activities taking place, so long as such use complies with Board Policy XXXX Community Use of School Facilities.

With the exception of political and campaign signs in the rights-of-way that conform with state law, political and campaign signs, flyers, literature, and other materials may not be posted or distributed in schools or on school grounds unless either: (1) it is a primary or general election day and the school operates as a voting site and displays and distributes campaign materials consistent with relevant election laws; or (2) a political candidate has rented a school facility pursuant to board policy, but such materials must be removed at the end of the rental period. Political and campaign materials, including political and campaign advertisements, may be used in class when they are relevant to legitimate pedagogical purposes and are not used for advocacy.

All employees of the Kannapolis City Board of Education are prohibited from campaigning or supporting in any way any candidate for public office while on duty as a school employee. Furthermore, all KCS employees are prohibited from using their position as a school employee to advance the candidacy of anyone running for public office. This policy does not preclude KCS employees from identifying himself or herself with a particular candidate. All school employees are prohibited from soliciting volunteers and contributions from students or school employees for any political candidacy or campaign. No person shall, while on school system property, at or during any school system event or school-sponsored function, or using school system modes of communication, display, distribute or broadcast, any political or campaign related sign, banner, sticker, brochure or other materials or information, through any medium, or engage in any political or campaign related activities, except as may be permitted by this policy.
